## **Giprogazoochistka, Inc.**

Moscow, [www.ggo.ru](http://www.ggo.ru)

### **Software Engineer**

Customer support, scripting for Aveva (complex software for the design of large engineering projects in 3D), writing small programs in C # and other languages as needed. In the process, to provide the necessary knowledge of WPF, WCF, Linq, etc. at a high level.

During his time I learned a lot for myself, raised its level of developer in C #, met with new technologies (Linq, WCF), as well as the acquired MS SQL administration experience.

January 2010 —  
July 2013  
3 years 7 months

## **Giprougol, Inc.**

Novosibirsk, [giprougol.ru](http://giprougol.ru)

### **Main developer (programmer)**

Development, improvement and support of internal programs (planning and accounting system design work; Electronic project file); Complex Development Programs "calculation and control system of ventilation shafts." Including the development of architectural solutions. Trained and supervised programmers (students).

Job period: from 01.2008

Company Profile: Development and coordination of projects for the coal industry

January 2008 —  
January 2010  
2 years 1 month

## **Giprougol, Inc.**

Novosibirsk, [giprougol.ru](http://giprougol.ru)

### **Lead developer (programmer)**

Development, improvement and support of internal programs (planning and accounting system design work; Electronic project file); Complex Development Programs "calculation and control system of ventilation shafts." Including the development of architectural solutions. Trained and supervised programmers (students).

Job period: from 01.2008

Company Profile: Development and coordination of projects for the coal industry

July 2007 —  
January 2008  
7 months

## **KKM-Service**

Kemerovo

### **1C Programmer**

Installation, Configuration, commercial equipment (computer, cash register equipment, electronic scales); training; installation and training 1C: Trade + Warehouse; Writing and correction treatments for 1C, integration with third-party equipment.

January 2007 —  
October 2007  
10 months

## **Startup**

Kemerovo, [aikernel.org/projects/aiassistant/](http://aikernel.org/projects/aiassistant/)

### **Main developer**

Trying to realize its "start-up". Creating ShareWare program for sale. Performs the role of a coordinator, developer, architect.

The project was implemented on the personal enthusiasm, without involving financing. In the course

of realization of the planned development was received by the coordinator of experience, a wealth of knowledge on the IT technology and AI (AR).

Project Description: <http://aikernel.org/projects/aiassistant/>

October 2006 —  
March 2007  
6 months

## Elliot, Ltd.

Kemerovo, [liana-m.ru/index.php/elliott.html](http://liana-m.ru/index.php/elliott.html)

### Software Engineer

Working with computers, equipment. Program: Delphi 5,7. C ++

Equipment: different controllers.

Implementation of software for complex Liana-M ([liana-m.ru](http://liana-m.ru)). Development of the program for monitoring the state of the chain controllers, testing and start-up at the objects (distribution substations).

July 2005 —  
October 2006  
1 year 4 months

## ASI, Ltd.

Kemerovo, [icasi.ru](http://icasi.ru)

### Software Engineer

Working with computers, equipment. Program: Delphi 5,7. Equipment: Weighing equipment, video capture card. Use different databases: the original Access, Firebird, MS SQL, Oracle. Development of software for weighing instruments "Static". We used ANSI SQL to enable easy transfer from one database to another.

June 2005 —  
January 2006  
8 months

## KuzSTU, dep. physics

Kemerovo, [kuzstu.ru](http://kuzstu.ru)

### Assistant

Teacher working in laboratory, work with students, training, scientific research related to the prevention of sudden coal and gas. I teach students laboratory work, teaching them to think for themselves and work on the acquisition of knowledge. Always promoted the sense that a person learns for himself, not for the teacher. It is important to teach a person to think independently and to make decisions, rather than follow the instructions manuals. Manuals - it is just a tool to solve the problem.

## Education

---

### Higher

2005

## KuzSTU (Kuzbass State Technical University)

Gorno-Electro Mechanical Department, diploma with honors

## Professional development, courses

---

2007

## 1C-programming

RGTEU, courses

## Key skills

---

Languages

Russian — native

Skills

Delphi JavaScript PHP SQL Blockchain Bitcoin Project management  
Software Development Linux Git Redmine Scrum  
Agile Project Management FirebirdSQL Coordinator Cryptocurrency

## Further information

### About me

I love properly designed system architecture and software in particular. I like to work in the technical team leader. Sermons are not authoritarian and liberal form of governance (decision-making freedom in the framework of selected tasks, the ability to choose their own task available at the moment, etc.). I believe that the role of a leader is not to issue orders, and in the coordination of development activities.

basic programming languages: JavaScript (JS), Node.js, PHP, Delphi, C / C ++

Programming languages are not core: Java, C #, 1C.

Computer skills: CAD: AutoCAD, ArhiCAD, Compass, Mechanical Desktop, Ansys, Inventor,

SCADA: RockwellSoftware, LabView; DB, ADO, OLE, RS232, OPC, TCP / IP, Client / Server; Git, SVN, Redmine, C #, WPF, WCF, etc

The experienced Linux user (using a more than 6 years and the main house system).

I'll tell you a little about myself. Born and raised in Kemerovo. Independently learned programming (Pascal, Java, C #, SQL), and then worked as a Delphi programmer, 1C. Tried to organize your "startup", was the coordinator and developer AiAssistant system. The project fell through - but I got invaluable experience. Then he moved to Novosibirsk, where he worked for five years, initially leading, then the principal designer. It is now almost a year living and working in Moscow. He worked as a programmer C #, JavaScript + PHP (screenshots of the developed system are available here <http://prof1983.info/portfolio/ipce>). Since 2014 I am working on its "startup" Libre.Money (cryptocurrency with special emission system), in 2015 - over Libre.Life project (information resource).

Member foresight fleet-2015 as part of the group FinNet (financial future technologies). Member of several groups of NTI (National Technology Initiative) of the ASI (Agency for Strategic Initiatives). Member of School Foresight 2016.

More about me: <https://prof1983.info/about>

Portfolio, resume and other information are available at <http://prof1983.info>

Libertarian, technocracy, crypto technology, crypto-currency, economy, system of management.
